### Removal of Scores from the ranking list

The Pan Am Waterski Council received information from AWSA's Technical slalom end course review about driving issues at a particular tournament, MC Skis Open 7 (20S046R) held on November 10, 2019.

The Council reviewed this information and found that a number of passes were out of tolerance. The Council is taking the following actions to reduce the scores from runs with improper driving that illegally gave an advantage to the skier in the competition and affected the results of the ranking list.
